AB Rapid-hardening cement is mixed with fly ash, volcanic ash, white earth, clay, SiO<sub>2</sub>, and/or glass powder at a 1:(0.4-9) wt. ratio and used to manuf. glass fiber-reinforced concrete articles. Thus, a mixt. contg. rapid-hardening cement 1, sand 0.6, water 0.33, a water-reducing agent 0.025, citric acid [77-92-9] 0.003, and fly ash 1 part was mixed with 5% alkali-resistant glass fibers, molded, and hardened to give a plate having high strength.
